Compatability Overview 60

The pursuit of perfect sound.

Sound is amazing. No other sense affects the brain in the same way as sound does. It creates electrical impulses that dance from synapse to synapse. It sends shivers shooting up and down your spine. It makes the hairs on the back of your neck reach for the heavens.

We at Sennheiser have always been driven by the pursuit of perfect sound. We want you not only to hear all aspects of sound but also to feel them.

Please visit www.sennheiser.com for more information.

Sounds that come alive.

We shape the future of audio based on our heritage, innovative inspiration and passion for excellence. For almost 70 years our name has been standing for top-quality products, true sound and tailor-made solutions for every aspect of recording, transmission and reproduction of sound. For us, good sound is not enough. We want to achieve the perfect sound. We want to make sound come alive.

The way to this achievement has been paved by trailblazing ideas. Ever since electrical engineer Prof. Dr. Fritz Sennheiser founded the company in 1945, Sennheiser has been continuously setting trends in the audio industry. Whether our customers are artists, disc jockeys, pilots, scientists, sound technicians or demanding music lovers, Sennheiser always stands for premium products. With German engineering and decades of experience in innovative science, we stay true to the sound. We strive for excellence, for ease of operation and supreme quality. And we set new standards for headphones, headsets, microphones and integrated systems.

Audiophile sound.
High-end components.

The lifelike, untainted sound of audiophile equipment will transport you into a world like no other. You will feel as if you were in the middle of a concert hall. Immerse yourself in the sound and enjoy.

HD 800

The HD 800 are handmade reference class headphones that set standards.
Their pure, spatial sound is in a class of their own, in terms of detail and natural tones.

- Realistic and natural sound field with minimal resonance
- Unique dynamic transducer design
- Frequency response: 6–51,000 Hz (–10 dB)
- Impedance: 300 Ω
- SPL (at 1 kHz, 1 Vrms): 101 dB

IE 800

At the heart of the IE 800 are several small but invaluable breakthroughs, like the perfected extra wide-band (XWB) transducer system. Flaunting a diameter of only 7 mm, it is currently the smallest extra wide-band sound transducer available in dynamic ear canal phones and promises distortion-free sound, capable of performing even at high sound pressure levels. Patented D2CA (dampened two-chamber absorber) technology enables the best high-frequency perception ever with an ear canal phone.

- Two protective meshes – one situated in the ear cushion and one in the cone, offering easy cleaning and effective protection against dirt contamination
- Very low overall harmonic distortion
- Frequency response: 5–46,500 Hz (–10 dB)
- SPL (at 1 kHz, 1 Vrms): 103 dB
- Impedance: 18 Ω

HDVD 800

Designed and manufactured in Germany, this high-end, solid-state amplifier harmonizes perfectly and delivers an ultimate acoustic performance when paired with any of Sennheiser's audiophile headphones.

- Digital and analog signal processing
- Metal-crafted design and high-quality components
- High-quality Burr-Brown digital/analog converter (DAC)
- Up to 24 bit/192 kHz sampling frequency
- Symmetrical and asymmetrical inputs and outputs

HDVA 600

The premium HDVA 600 amplifier is manufactured and designed in Germany and features a fully symmetrical layout for operation with analog audio sources. It has an anodized aluminum housing, potentiometer control and rotary switch. Embedded in the aluminum housing is a glass panel which offers a view of the meticulously selected components. This amplifier brings the best out of any of Sennheiser's audiophile headphones.

- Analog signal processing
- Metal-crafted design and high-quality components
- Symmetrical and asymmetrical inputs and outputs

Home entertainment.
Wired headphones.

Wired stereo headphones allow you to experience your favorite music with greater intensity than ever before. Plus, padded headbands and soft earpads ensure excellent comfort.

HD 700

Immense audio enjoyment at your fingertips. With innovative and highly aesthetic yoke, and angled acoustic baffle for optimal sound experience, the HD 700 invites you to bask in true audio enjoyment.

- Innovative and highly aesthetic yoke
- Angled acoustic baffle for optimal sound experience
- Frequency response: 8–44,000 Hz (–10 dB)
- Impedance: 150 Ω

HD 650

With their hand-selected, matched acoustical systems, these open, dynamic hi-fi headphones are top class.

- Balanced and transparent sound
- Elegant titanium silver finish
- Frequency response: 10–39,500 Hz
- Impedance: 300 Ω

HD 600

You will experience a particularly detailed sound with these open, dynamic hi-fi headphones. The powerfully reduced total harmonic distortion (THD) ensures extremely pure audio.

- Natural, spatial sound
- Excellent transient response
- Frequency response: 12–39,000 Hz
- Impedance: 300 Ω

HD 598

E.A.R. technology and compressed cellulose fleece bring sound enjoyment to the next level while a high-quality leatherette headband and velour earpads provide outstanding comfort and luxury.

- Exceptional clarity and musicality
- Premium beige and burl wood finish
- Frequency response: 12–38,500 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

HD 558

Get the full movie and music experience with a Surround Reflector that generates an extended spatial sound field for an enhanced audio reproduction.

- Outstanding bass and vocal projection
- Surround Reflector for extended spatial sound field
- Frequency response: 15–28,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

HD 518

Sennheiser's innovative E.A.R. technology, special Duofol diaphragms and generously padded earpads bring comfort and quality together.

- State-of-the-art Duofol diaphragms
- Outstanding comfort for long listening sessions
- Frequency response: 14–26,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

HD 439

For a combination of street style and prowess, the HD 439 closed-back stereo headphones are the choice. These headphones offer you the world of audio in a bold and revolutionary design, including a chrome inner lining and black mesh turbines. Enjoy an enhanced and outstanding bass performance.

- Ergonomic design provides a comfortable fit
- Choice of two single-sided cables for flexible length and convenience
- Frequency response: 17–22,500 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

HD 429

The HD 429 features a powerful bass response provided by high-output neodymium magnets. These headphones have an innovative and ergonomic silicone design, providing durability and a comfortable fit every single time. Their closed circumaural headphone configuration effectively isolates ambient noise while the single-sided cable reduces tangling.

- Closed circumaural design blocks out ambient noise
- Single-sided cable for freedom of movement
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

Portable entertainment.
Music.

A dynamic, balanced sound and a varied range of applications distinguish these classic, portable headphones and earphones. The designs are equally diverse. Take your pick.

MOMENTUM Ivory

Crafted from the finest materials, the MOMENTUM Ivory fuses understated design with uncompromising sound performance. An elegant headband slider of brushed stainless steel provides maximum adjustability, while the leather-padded headband and ear cups ensure the ultimate in wearing comfort. With this ivory version, Sennheiser has reinvented the MOMENTUM's clean design in a lighter color.

- Closed circumaural design reduces ambient noise.
- Breathable leather headband is water resistant and reduces perspiration.
- Frequency response 16–22,000 Hz
- Sound pressure level (SPL) 110 dB (1 kHz/1 Vrms)

MOMENTUM

Experience the fine art of sound with all your senses made possible by these high-end, closed circumaural headphones designed using the finest leather for earpads, ensuring maximum style and comfort. These headphones also exhibit many other cutting-edge features such as luxurious and tough breathable leather headband, metal-constructed earcup slider for maximum durability and custom fit, plus an integrated smart remote with microphone unit for ease of use.

Available in black and brown.

- Closed circumaural headphone design isolates ambient noise
- Soft and supple leather earpads for excellent wearing comfort
- Frequency response: 16–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

MOMENTUM On-Ear

Beautiful and compact, the Sennheiser MOMENTUM On-Ear. It transforms the concept of Sennheiser's acclaimed MOMENTUM headphones into a lighter, smaller, refreshingly fashionable approach, while staying true to its purist philosophy and dedication to high performance in sound and style.

- Closed circumaural headphone design isolates ambient noise
- Equipped with Sennheiser's proprietary 18 Ohm transducers, which take technology from the high-end headphone sector to ensure full stereo sound with every detail of breath and tone clearly audible
- Headband made of premium brushed stainless steel
- Integrated smart remote with microphone unit for ease of use
- MOMENTUM On-Ear is available in pink, blue, green, ivory, black, brown and red
- Frequency response: 16 – 22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

MOMENTUM In-Ear **NEW!**

Sennheiser's MOMENTUM headphones revolutionised fashionable headphones through premium, minimalist design and acclaimed sound performance – matching style with substance. Now Sennheiser goes further by bringing the MOMENTUM ethos to an in ear headphone – the MOMENTUM In-Ear.

- Custom machined stainless steel acoustic pipe for more accurate sound
- High-quality dynamic speaker system and excellent attenuation of ambient noise
- Available in two variants with a 3-button in-line remote with an integrated mic optimised for either Apple iOS or Samsung Galaxy™ smart devices
- Frequency response: 15–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 118 dB

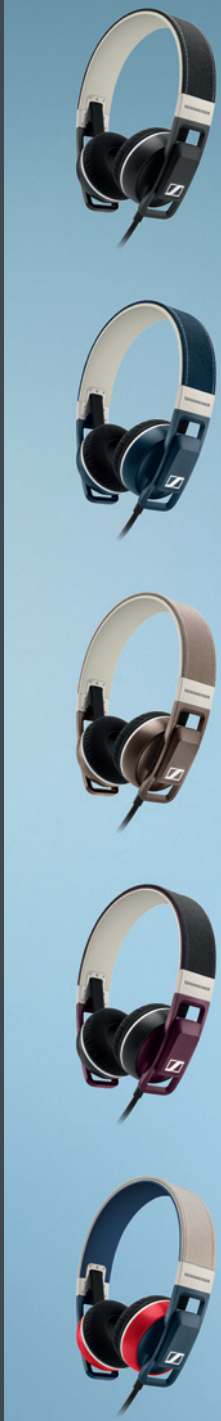
Portable entertainment.
Let your ears be loved.

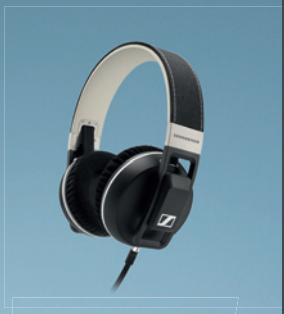
The new mobile stereo headphone range – including the on-ear URBANITE and over-ear URBANITE XL – delivers an intense club sound, serving up massive bass but with Sennheiser's uncompromising audio expertise ensuring excellent clarity through the entire frequency range.

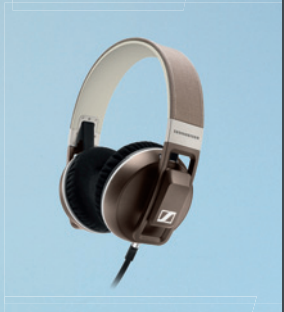
URBANITE **NEW!**

Sennheiser's new on-ear headphones URBANITE are the new choice for great sound, deep bass, and urban style on the move. Staying connected is a breeze with dedicated devices that provide in-line remotes and integrated microphones for taking calls and controlling the music. URBANITE's streetwise styling comes with toughness to match.
They feature durable metal components that can take on the pressures of urban living.
The collapsible design makes it easy to store and bring along.

- Take your club with you – massive bass and clear treble
- Tough companion – extra rugged for robust urban living
- Stay connected – control your music and calls
- Fits your life – fold them up and go
- Frequency response (headphones): 16 –22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 118 dB







URBANITE XL **NEW!**

Sennheiser's new over-ear headphones URBANITE XL deliver unique style and an intense club sound on the move – serving up massive bass but with Sennheiser's uncompromising audio expertise ensuring excellent clarity across all frequencies. Staying connected is a breeze with dedicated devices that provide in-line remotes and integrated microphones for taking calls and controlling the music. The urban design of the URBANITE XL comes with toughness to match. They feature durable metal components that can take on the pressures of urban living and the collapsible design makes it easy to store and bring along.

- Take your club with you – massive bass and clear treble
- Tough companion – extra rugged for robust urban living
- Wrapped in comfort – XL ear-pads simply feel better
- Stay connected – control your music and calls
- Fits your life – fold them up and go
- Frequency response (headphones): 16 –22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

IE 80

The IE 80 features high-fidelity stereo sound and high noise attenuation with an enhanced design. Encased in a brushed metal housing and rugged, interchangeable cable, it is built for maximum robustness and flexibility. It also features a unique technology that enables sound-tuning of bass response. A world of premium audio awaits your discovery.

- Extremely durable housing and rugged, interchangeable cable
- Unique manual frequency response tuning function
- Frequency response: 10–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 125 dB

IE 60

With dynamic drivers and powerful neodymium magnets, the IE 60 ear-canal phones deliver not only high-fidelity sound but also outstanding bass response and noise isolation. With a durable housing and tough cabling, it is designed for robustness. Quality construction complete with a protective case, cleaning tool and various ear adapter sets, these earphones will redefine your imagination of sound.

- Excellent attenuation of ambient noise
- Extremely durable housing and rugged cable
- Frequency response: 10–18,000 Hz
- SPL (at 1 kHz, 1 Vrms): 115 dB

IE 8i

The IE 8i marks a milestone in the development of ear-canal headsets. With its unique technology, the IE 8i enables the user to precisely fine-tune the bass response. It also features a remote unit enabling you to fully control your iDevice – simply push the buttons integrated in the cable to control the music player or calls as well as the Voice Control.

- Excellent attenuation of ambient noise
- Dynamic drivers with powerful neodymium magnets ensure outstanding sonic accuracy and clarity
- Frequency response: 10–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 125 dB

MM 70s

Sennheiser's MM 70s universal ear-canal headset for Smartphones and tablets features an in-line remote with integrated microphone that makes it easy to manage phone calls, volume and music tracks.

- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 106 dB
- Universal fit with any smartphone brands featuring a 3.5 mm headphone jack
- Smart in-line remote control with microphone

MM 70i

The Sennheiser MM 70i for Apple devices features a sleek in-line remote with microphone – giving complete control over essential call and music-playing functions with superior musical detail resolution and precise dynamics.

- Available in black or white
- Effective noise blocking
- Smart in-line remote control with microphone
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 106 dB
- The MM 70i is available in black or white

CX 275s

Perfect for any smartphone! The ergonomic CX 275s ear-canal headset is suitable for all smartphone and tablet brands featuring a 3.5 mm headphone jack. It delivers excellent passive attenuation of ambient noise as well as outstanding bass-driven stereo sound. Use it to talk, listen to music and control your playlists.

- Universal fit with any smartphone brand featuring a 3.5 mm headphone jack
- Great bass-driven stereo sound
- Frequency response: 17–23,000 Hz
- SPL (at 1 kHz, 1 Vrms): 121 dB

MM 30G

The MM 30G in-ear headset is made especially for users of the latest generation of Samsung Galaxy devices. It features an in-line remote control with microphone giving you full control over the sound and calls in your Galaxy. High-end speakers, the ear-canal design and customized ear-sleeves all together ensure effective noise blocking and superior stereo sound.

- Effective noise attenuation
- Choice of ear-sleeve sizes for a comfortable custom fit
- Frequency response: 17–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 106 dB
- Available in black or white

MM 30i

The ergonomic MM30i headset gives you superior bass and your iPhone the sound it deserves. Its snug-fitting ear sleeves effectively block out background noise, so that you are able to feel the beat. The smart in-line remote with microphone puts the full set of controls within easy reach. Effortlessly slip on this headset and experience the signature sound of Sennheiser.

- Effective noise attenuation
- Choice of ear-sleeve sizes for a comfortable custom fit
- Frequency response: 17–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 106 dB
- Available in black or white

PX 200-II / PX 200-IIi

The closed, dynamic, supra-aural PX 200-II mini headphones are not only ideal for great sound enjoyment but they also provide excellent isolation. Their soft leatherette earpads provide outstanding wearing comfort. Also, an integrated volume control on the cable allows for enhanced usability and convenience.

- Unique fold-and-flip design
- Rugged and robust
- Frequency response: 10–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 115 dB
- The PX 200-IIi comes with a smart in-line remote control with microphone for iPod, iPhone and iPad.

PX 100-II / PX 100-IIi

A musical all-rounder, the PX 100-II supra-aural mini headphones let you enjoy your personal favorites at any time. Their dynamic open earcup design allows for a natural sound reproduction with strong bass. Simply fold them up to fit into the soft carrying case for enhanced portability.

- Available in black and white.
- Mini headphones with open construction
- Steel-reinforced headband
- Frequency response: 15–27,000 Hz
- SPL (at 1 kHz, 1 Vrms): 114 dB
- The PX 100-IIi comes with a smart in-line remote control with microphone for iPod, iPhone and iPad.

PX 95

Sennheiser's sleek new PX 95 mini-headphones provide detailed stereo sound reproduction, while still being light enough to wear comfortably for hours on end. The slender steel headband is not only durable but also highly flexible, thus guaranteeing a proper fit.

- Dynamic drivers for detailed stereo sound with strong bass
- Improved earpad foam and quality fabric mesh for enhanced acoustics
- Frequency response: 15–27,000 Hz
- Sound pressure level (SPL): 114 dB

PX 30-II

The PX 30-II are a pair of open, dynamic, supra-aural mini headphones for portable media players. Thanks to the bass tube and ultra-light membrane, they deliver a balanced sound that easily outperforms other conventional mini headphones. Strut the streets in style accompanied by a moving sound experience.

- Transparent, bass-driven sound
- Lightweight and comfortable
- Frequency response: 30–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 115 dB

PMX 95

The PMX 95 is a contemporary, urbane model that features an ergonomic neckband for superior comfort and a secure fit. The single-sided anti-friction cable allows the wearer maximum freedom of movement while enjoying lush stereo sound on the go, and the soft, rotatable ear cups are easily adjustable.

- Dynamic drivers for detailed stereo sound with strong bass
- Improved earpad foam and quality fabric mesh for enhanced acoustics
- Frequency response: 15–27,000 Hz
- Sound pressure level (SPL): 114 dB

PCX 95

The PCX 95 is Sennheiser's first model of headphones with an in-ear neckband design. They deliver detailed, bass-driven sound with amazing depth and extension in an unobtrusive, easy-to-wear package. The single-sided anti-friction cable allows the wearer maximum freedom of mobility, and the included set of ear adapters guarantees a perfect fit.

- Precise, bass-driven sound with enhanced passive noise isolation
- An angled acoustic pipe for improved sound projection
- Frequency response: 17–22,500 Hz
- Sound pressure level (SPL): 115 dB

CX 1.00 NEW!

Sennheiser's new CX 1.00 headphones offers a powerful sound experience with a deep and punchy bass. The new ultra small design guarantees excellent comfort while the included set of earadapters in four different sizes (XS, S, M, L), ensures effective noise blocking that will really let you feel the beat! Available in black and white.

- Earphones with powerful sound and deep bass
- Ultra small design for excellent comfort
- Frequency response 17–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 119 dB

CX 2.00 NEW!

Sennheiser's new CX 2.00 headset has the rich and vibrant bass-driven sound you've come to expect from a Sennheiser product. The ease of use from the 3 button in-line remote with integrated mic, lets you answer your calls and control your music with just the push of a button. The CX 2.00 is the perfect headset when you are on the move. Available in black and white for IOS and Android devices.

- Headset with vibrant sound and deep bass
- Optimized shape and size for perfect fit and outstanding comfort
- Frequency response 17–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 119 dB

CX 3.00 NEW!

Spice up your sound with Sennheiser's new CX 3.00 earphones which offer amazingly detailed sound reproduction and enhanced bass response in an incredibly small package.
The in-ear design reduces ambient noise to a minimum, and the included set of ear adapters guarantees an individualized fit with four sizes (XS, S, M, L) to choose from. Available in black, white or red.

- Earphones with detailed sound and enhanced bass
- Convenient carry case included
- Elliptical, tangle-free cable
- Frequency response 17–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 118 dB

CX 5.00 NEW!

The CX 5.00 delivers all of the impressive sound quality and superior bass response that you expect from a Sennheiser product as well as all of the functionality you need from your portable device. The CX 5.00 features an in-line remote with an integrated mic, so you can take calls and listen to music with the push of a button. Amazing sound was never this convenient. Available in black or white.

- High-quality headset tuned for clarity and superior bass
- Ergonomic, angled design for excellent in-ear comfort
- Elliptical, tangle-free cable
- Convenient carry case included
- CX 5.00i is available with in-line remote control for Apple smartphones and tablets
- CX 5.00G is available with in-line remote control for Windows phones and Android devices such as Samsung Galaxy models
- Frequency response 16–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 118 dB

CX 215

Get fresh and funky with the CX 215 stylish ear-canal phones. They feature an innovative finger-contoured housing design for easy adjustment and optimal wearing comfort in the ears. These earphones also block out ambient noise and deliver a powerful bass-driven sound experience.

- Innovative finger-contoured housing design
- High passive attenuation of ambient noise
- Frequency response: 20–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

MX 585

The ultra-lightweight earphones MX 585 deliver excellent clarity and powerful bass without being bulky. To add to your listening convenience, the integrated volume control makes it quick and easy to adjust the sound level. A storage pouch is also included in the delivery.

- Stereo sound with impressive bass response
- Integrated volume control
- Frequency response: 18–20,000 Hz
- SPL (at 1 KHz, 1 Vrms): 118 dB

MX 375

These sleek and ergonomically designed earphones offer an optimum fit and comfort. Their high-performance dynamic drivers deliver powerful, booming bass while you are able to relax and enjoy pure audio immersion.

- Dynamic drivers for powerful, booming bass
- Ergonomically designed for optimum fit and comfort
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 122 dB

OMX 185

These earphones sport flexible ear hooks that not only ensure a custom and secure fit, but are also capable of matching your active lifestyle. Delivering powerful, bass-driven stereo sound, walk into a perfect mix of tunes and life rolled into one innovative and alluring experience.

- Powerful, bass-driven stereo sound
- Flexible ear hooks ensure a custom and secure fit
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 122 dB

HD 449

The HD 449 stands out from the crowd with their striking, kink design and high-quality audio reproduction. Delivering detailed sound and clarity, both indoor and outdoor, with their advanced acoustic system, these headphones are guaranteed to please. Their design ensures a comfortable fit around your ears and isolate ambient noise.

- Ergonomic design provides a comfortable fit
- Gold-plated plugs and 6.3 mm stereo adapter
- Frequency response: 16–24,000 Hz
- SPL (at 1 kHz, 1 Vrms): 114 dB

HD 429s

With Sennheiser's HD 429s universal headset for on-the-go music, entertainment and communication you can enjoy Sennheiser sound quality everywhere regardless of which smartphone or tablet you have. The high-output neodymium magnets for stereo sound with smooth bass response provide an outstanding audio performance while the closed around-the-ear headphone design isolates ambient noise.

- Universal fit with any smartphone brand featuring 3.5 mm headphone jack
- Closed circumaural design blocks out ambient noise
- In-line remote control with microphone
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

HD 419

The HD 419 headphones are a fusion of attractive aesthetics with a powerful, punchy, dynamic bass. With their closed circumaural design, you can expect efficient isolation of ambient noise, making them friendly in all environments. Their special single-sided cable eliminates tangling and ensures comfort and usability.

- Convenient single-sided cable
- Sophisticated in-mold finishing
- Frequency response: 20–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

HD 219

Experience the sound quality that you deserve with a design that is minimalistic yet sophisticated. The HD 219 is a pair of closed-back on-ear headphones that are versatile. It will provide you with sufficient bass and blocks out ambient noise, which is suitable for all work and play situations.

- Powerful, bass-driven stereo sound
- Closed on-ear headphone design blocks out ambient noise
- Frequency response: 19–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

HD 219s

Experience vibrant sound with punchy bass with Sennheiser's HD 219s universal on-the-ear headset. Easy management of calls, tracks and volume is achieved with the smart in-line remote with integrated microphone.

- Universal fit with any smartphone brand featuring 3.5 mm headphone jack
- Closed design that isolates ambient noise
- Frequency response: 19–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

HD 218i

The HD 218i features a closed design with a strong emphasis on bass. This headset with remote unit enables you to fully control your iDevice – simply push the buttons integrated in the cable to control the volume, skip tracks, answer, end or reject calls and activate the Voice Control.

- Smart remote with mic: enhanced usability for the latest models of iPod, iPhone and iPad
- Closed supra-aural design blocks out ambient noise; creates a controlled environment for better sound
- Frequency response: 19–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

HD 239

Expect a timeless design and a touch of class with the HD 239 headphones. Their advanced acoustic system with powerful neodymium magnets ensure maximum performance and high-fidelity audio. A top-notch and smooth stereo sound experience ensues.

- Lifelike stereo sound experience
- Premium metallic components and exchangeable earpads
- Frequency response: 16–23,000 Hz
- SPL (at 1 kHz, 1 Vrms): 114 dB

HD 229

Your urban active lifestyle is never complete without the HD 229. These headphones provide excellent bass performance, feature juxtaposing, salient colors and a street-style design. The single-sided cable provides ease-of-use, making these headphones delightful accoutrements in all pursuits.

- Powerful neodymium magnets
- Outstanding bass performance
- Frequency response: 18–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 110 dB

MM 100

The MM 100 headset lets you enjoy music and never miss a call from your mobile phone. The lightweight neckband wearing style is sturdy and perfect for your active lifestyle and daily commute without the hassle of cables. The MM 100 has an integrated microphone for making calls with mobile phones that support Bluetooth®.

- High-quality Bluetooth® wireless transmission
- Ultra lightweight neckband design makes it ideal for all active pursuits
- Frequency response: 22–20,000 Hz
- Up to 9 hours of talk time

Home entertainment.
Wireless headphones.

Enjoy wireless freedom without compromising on sound quality. Sennheiser's digital and analog wireless headphone systems are the ideal solution. Precise sound reproduction, robust transmission, reception of up to 100 m and high wearing comfort are outstanding features of these headphones.

RS 180

These open headphones can breathe from the circumaural earcups, offering an excellent sound image. Capable of serving up to four pairs of headphones, they utilize a sophisticated digital wireless audio transmission.

- Clear and detailed audio reproduction
- Balance control for setting the volume for the right and left ear
- Headphone operating time: up to 24 hours
- Frequency response: 18–21,000 Hz

RS 170

The RS 170 with its high-quality digital wireless audio transmission offers weighty, full-bodied and detailed sound reproduction. While leatherette earpads and headband cushions provide outstanding comfort, its closed, circumaural design prevents sound leakage.

- Dynamic bass and surround sound modes
- Transmitter also functions as charging station
- Headphone operating time: up to 24 hours
- Frequency response: 18–21,000 Hz

RS 160

The RS 160 is a two-part system that utilizes a high-quality digital wireless audio transmission, capable of serving up to four pairs of headphones. Rousing and full-bodied bass delivery is expected while the closed, snug fit isolates outside noise.

- Powerful, bass-driven sound
- Compact, portable transmitter with multi-receiver capability
- Headphone operating time: up to 24 hours
- Frequency response: 18–21,000 Hz

RS 120 II

The RS 120 II delivers transparent and well-balanced sound matched with exceptional bass response. Enjoy the outstanding wearing comfort of this open, circumaural wireless headphone while experiencing total freedom of movement.

- Lightweight and comfortable
- Transparent sound with strong bass
- Headphone operating time: up to 20 hours
- Frequency response: 22–19,500 Hz

RS 110 II

The RS 110 II breathes new life into audio with its high sound quality. Its detailed, balanced sound reproduction coupled with strong bass response allows you to rediscover the world of wireless freedom with a touch of simplicity and elegance.

- Excellent bass reproduction
- Suitable for all types of modern music and TV applications
- Headphone operating time: up to 22 hours
- Frequency response: 22–19,500 Hz

Home entertainment.
TV headphones.

Desire undisturbed television enjoyment? Look no further with our range of TV sound systems. You can set your preferred volume and enjoy freedom of movement without worrying about disturbing anyone else.

RS 4200-II TV

The RS 4200-II TV enthralls with its smooth RF audio transmission and clear-cut operation. This stereo listening system establishes the yardstick for performance matched with a conspicuous design.

- Sound transmission even through walls and ceilings
- Excellent sound reproduction
- Operating time (receiver): up to 9 hours

ENERGIESPAREND / Energy saving / Consommation d'énergie réduite

IS 410 TV

This lightweight infrared stereo headphone system enables you to individually adapt volumes to your hearing preference. Operation of the system is easy and intuitive – automatically switches on when worn.

- Excellent speech intelligibility
- Transmits sound within a room, at a distance of up to 12 m
- Operating time (receiver): up to 16 hours
- Frequency response: 50–16,000 Hz

HD 65 TV

The HD 65 TV is a pair of closed TV stereo headphones designed specifically for watching TV and movies. Not only are they comfortable and lightweight, they also feature superb speech lucidity and deliver a high-quality reproduction of TV sound. These headphones come with a connection cable of 5.2 m and have an integrated volume control for direct connection to your TV. Additionally, there are also separate controls for the left and right channels.

- Extra-long 5.2 m connection cable
- Good attenuation of ambient noise
- Frequency response: 25–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

HD 35 TV

These TV headphones provide a balanced, clear reproduction of TV sound while the volume control on their connection cable offers separate controls for the left and right channels. Not to forget, they are also lightweight; hence, they are ideal for those long nights indulging in your favorite movies or TV programs.

- Extra-long 5.2 m connection cable
- Independent volume control
- Frequency response: 30–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 115 dB

Professional.
DJ and monitoring headphones.

Sennheiser's professional headphones provide effective shielding from all ambient noise and have outstanding monitoring characteristics. They are extremely robust and resilient, making them perfect for clubs and studios.

HD7 DJ

Designed with the working DJ in mind, the HD 7 DJ delivers impressive sound quality and powerful, accurate bass. Constructed of rugged, lightweight parts, the HD 7 DJ is built to withstand years of heavy-duty use, and the ear cups can be rotated 210° for easy one-ear monitoring and storage. The soft, durable ear cushions ensure a comfortable fit even after extended periods of use and reduce background noise to a minimum.

- Excellent sound reproduction across the audible range thanks to Sennheiser's proprietary acoustics system
- Single-sided coiled cable can be attached to either ear cup; straight cable included (both up to 3m)
- Impedance: 95 Ohm
- SPL (at 1 kHz/1 Vrms): 115 dB

HD 205-II

The elegant HD 205-II are medium-sized, supra-aural headphones that provide excellent sound quality and brilliant shielding of ambient noise. Their rotatable earcups and the single-sided cable make them professional companions for DJs. These headphones come with a convenient protective pouch for easy storage and transportation.

- Outstanding passive attenuation of ambient noise
- Rotatable earcup for one-ear listening
- Frequency response: 14–20,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

HD 215-II

Enjoy excellent sound with these closed headphones that both have outstanding sound characteristics and provide excellent shielding of ambient noise. Their rotatable earcups are made for one-ear listening and the single-sided coiled cable makes them ideal for DJ monitoring and sound engineering. They provide rich stereo sound and are extremely comfortable to wear.

- Excellent attenuation of ambient noise
- Earcup is rotatable for one-ear listening
- Frequency response: 12–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

Portable entertainment.
Travel.

Indulge in first-class travel – the headphones of the Sennheiser Travel line belong in this league. The active NoiseGard™ system effectively attenuates ambient noise, allowing you to concentrate fully on excellent stereo sound.

CXC 700

Presenting the CXC 700, Sennheiser's inaugural travel earphones with NoiseGard™ / digital and TalkThrough function. Engineered for discerning business travelers and frequent flyers, these premium ear-canal phones feature the latest incarnation of Sennheiser's active noise cancelling technology in three different modes, which identifies and reduces even more unwanted ambient noise.

- Highly advanced acoustic system for excellent audio performance
- Audio transmission that always works – even in passive mode and without batteries
- Frequency response: 20–21,000 Hz
- SPL (at 1 kHz, 1 Vrms): 108 dB

- Collapsible, metal-reinforced headband
- Frequency response: 15–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 107 dB

Gaming headsets.
PC, Mac and Console.

Gaming time is your time, and every Sennheiser gaming headset comes with a built-in mission: to deliver pure emotion and excitement, and give you the full experience your games deserve. It is no coincidence that many games are recorded with Sennheiser audio equipment, too.
All Sennheiser's PC gaming headsets with 2 plugs (microphone & audio) can also be used on Mac, Xbox One® and PS4® thanks to the PCV 05 Audio Combo Adaptor.

G4ME™ ZERO

The Sennheiser G4ME™ ZERO professional noise blocking gaming headset is the no compromise headset. It offers supreme comfort due to the tailored leatherette triple-layered memory-foam ear pads and a lightweight design. Featuring a new modern and robust design with Sennheiser speakers and pro noisec ancelling microphone, you'll have the best headset for your game.

- Professional noise blocking PC gaming headset
- Frequency response: 10–26,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB
- Compatible with PC and Mac
- Game Zero is available in black and white

G4ME™ ONE

Feel the rush, the beats, the tension and the awesome sound - not your headset. The Sennheiser G4ME™ ONE open acoustic gaming headset features an extremely accurate and natural sound experience. The open design keeps your head cool and plush velvet ear pads ensure that G4ME™ ONE offers ultimate comfort.

- Open acoustic PC headset for home gaming
- Frequency response: 15–28,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB
- Compatible with PS4®/Xbox One®/PC and Mac
- Game One is available in black and white

PC 363D

The Sennheiser PC 363D Surround Sound Gaming Headset provides a deep and realistic directional audio experience. Developed with Dolby®, it delivers 7.1 surround sound for the non-compromising PC player.

- Professional Gaming headset in open design
- Frequency response: 15–28,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

PC 333D

The PC 333D headset tears up the script for professional 3D gaming with its hyper realistic, multi-channel soundscape and earhugging closed design. It would take even the most raucous gaming party to a whole new level of intensity and dimension.

- 7.1 surround sound powered by Dolby® technologies
- Automatic microphone mute by raising the boom arm
- Frequency response: 14–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB

PC 330

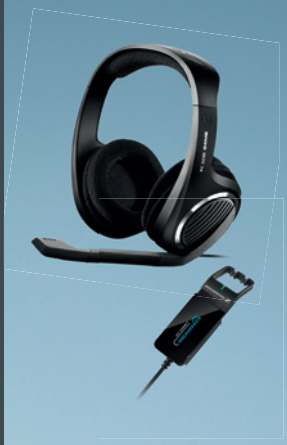
A high-performance headset for gamers, the PC 330 provides an intuitive design and a competitive edge. Closed acoustics keep gamers focused on the game while with a swivel of the DJ Hinge earcup, they are able to communicate directly with their teammates. Between rounds, easily mute the microphone by raising the boom and relax to music or videos in quality sound.

- DJ Hinge for direct communication
- Automatic microphone mute by raising the boom arm
- Frequency response: 14–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 112 dB
- Compatible with PC, Mac, Xbox One® and PS4®

PC 323D

The PC 323D embodies 3D gaming. Dolby® Headphone and Dolby® Pro Logic® IIx raise the bar in experiencing immersive and realistic 7.1 surround game audio. The CircleFlex™ earcups with open-acoustic design are super comfortable and perfect for long gaming sessions. The pro noise cancelling microphone for clear chats, automatic microphone mute and on-ear volume control round up the package.

- CircleFlex™ earcups for maximum comfort
- 7.1 surround sound powered by Dolby® technologies
- Frequency response: 15–23,000 Hz
- SPL (at 1 kHz, 1 Vrms): 113 dB



PC 320

The PC 320 is an ultra comfortable headset. With its open-acoustic design, which lets in air to keep your head cool, and its CircleFlex™ earcups, it is ideal for long gaming sessions. It features the superb Sennheiser stereo sound and pro noise cancelling mic.

- CircleFlex™ earcups for maximum comfort
- Automatic microphone mute by raising the boom arm
- Frequency response: 15–23,000 Hz
- SPL (at 1 kHz, 1 Vrms): 113 dB
- Compatible with PC, Mac, Xbox One® and PS4®

PC 310

The PC 310 upgrades your gaming experience. It delivers a great Sennheiser sound with your PC games. The noise cancelling microphone reduces background noise, and the durable build is very comfortable and lightweight, for hours of gaming.

- Open-acoustic design
- Noise cancelling microphone
- Frequency response: 17–22,000 Hz
- SPL (at 1 kHz, 1 Vrms): 118 dB
- Compatible with PC, Mac, Xbox One® and PS4®

PC 151
